EMACS CONFIGURATIONS:

1 DOOM

1.1 Installation

To install Doom Emacs you can use this command:

```
1 $ git clone --depth 1 https://github.com/hlissner/doom-emacs ~/.emacs.d
2 $ ~/.emacs.d/bin/doom install
```

You might want to create an alias like this:

```
1 alias doom='~/.emacs.d/bin/doom'
```

1.2 Restore Configurations

This is to restore Doom Emacs configurations:

```
1 DOOM=$HOME/Project/NixOS/
2 ln -sf $DOOM/doom/ ~/.doom.d
```

2 NixOS

Lifehacks for NixOS options and stuffs.

```
1 ;;(add-to-list 'company-backends 'company-nixos-options)
```

3 Bindings

This bind your keys to yourself your emacs configs.

```
1 (map! :leader
2       :desc "Tangle current file" "c t" #'org-babel-tangle
3
4       :desc "Tangle current file" "t t" #'org-babel-tangle
5       :desc "Highlight" "t h" #'hl-todo-mode
6       :desc "Time" "t T" #'display-time
7
8       :desc "Dired" "o d" #'dired-jump
```

```
9
10      :desc "Toggle command log mode" "t c m" #'command-log-mode
11      :desc "Show command log buffer" "t c l" #'clm/toggle-command-log-
        buffer)
12
13 (map! :leader
14      (:prefix-map ("T" . "Text")
15
16          :desc "Figlet Border" "f b" #'figlet-border
17          :desc "Figlet Future" "f f" #'figlet-future
18          :desc "Figlet Pagga" "f p" #'figlet-pagga
19          :desc "Figlet Small" "f s" #'figlet-small
20          :desc "Figlet Future Border" "f F" #'figlet-future-border
21
22          :desc "List - Lorem Ipsum" "l" #'lorem-ipsum-insert-list
23          :desc "Sentences - Lorem Ipsum" "s" #'lorem-ipsum-insert-
        sentences
24          :desc "Paragraphs - Lorem Ipsum" "p" #'lorem-ipsum-insert-
        paragraphs))
25
26 (map! :leader
27      (:prefix-map ("N" . "NixOS")
28          :desc "NixOS Options" "h" #'helm-nixos-options))
29
30 (evil-better-visual-line-on)
31 (define-key evil-normal-state-map (kbd "j") 'evil-next-visual-line)
32 (define-key evil-normal-state-map (kbd "k") 'evil-previous-visual-line)
33 (define-key evil-normal-state-map (kbd "J") 'evil-scroll-down)
34 (define-key evil-normal-state-map (kbd "K") 'evil-scroll-up)
```

3.1 MODE

```
1 (map! :leader
2      (:prefix-map ("M" . "mode")
3
4          :desc "Shell" "s" #'shell-mode
5          ;; :desc " " "f f" #'
6          ;; :desc " " "f p" #'
7          ;; :desc " " "f s" #'
8          ))
```

4 User Interface

All eye-candy configurations from yours truly.

4.1 Fonts

```
1 (set-window-margins nil 2)
2 (setq doom-font (font-spec :family "Iosevka" :size 15)
3   doom-variable-pitch-font (font-spec :family "Iosevka" :size 15)
4   doom-big-font (font-spec :family "Iosevka" :size 24))
5 (after! doom-themes
6   (setq doom-themes-enable-bold t
7     doom-themes-enable-italic t))
8 (custom-set-faces!
9   '(font-lock-comment-face :slant italic)
10  '(font-lock-keyword-face :slant italic))
11
12 (when (file-exists-p "~/.doom.d/banner")
13   (setq +doom-dashboard-banner-padding '(2 . 2)
14     +doom-dashboard-banner-file "arkiv.png"
15     +doom-dashboard-banner-dir "~/.doom.d/banner"))
```

4.2 Modeline

```
1 (setq doom-modeline-enable-word-count nil)
2 ;;(set-face-attribute 'header-line nil :height 36)
3 (setq-default header-line-format " Archive-Code // 01-Ark // %M")
4 (setq display-time-mode 1)
```

4.3 Centaur Tabs

```
1 (setq centaur-tabs-set-bar 'over
2   centaur-tabs-set-icons t
3   centaur-tabs-gray-out-icons 'buffer
4   centaur-tabs-height 18
5   centaur-tabs-set-modified-marker t
6   centaur-tabs-style "bar"
7   centaur-tabs-modified-marker " ")
8 (map! :leader
9   :desc "Toggle tabs on/off"
10  "t c" #'centaur-tabs-local-mode)
11 (evil-define-key 'normal centaur-tabs-mode-map (kbd "g <right>") '
12   centaur-tabs-forward ; default Doom binding is 'g t'
13   (kbd "g <left>") '
14   centaur-tabs-backward ; default Doom
15   binding is 'g T'
16   (kbd "g <down>") '
17   centaur-tabs-forward-
18   group)
```

```
14                                     (kbd "g <up>") '
                                     centaur-tabs-backward
                                     -group)
```

5 Command Line Interface

6 Emacs Repair

Some utilities to repair this doom that has been lingering since..

6.1 EAF

```
1 ;;(add-to-list 'load-path "~/.emacs.d/.local/straight/build-27.1/eaf")
```

6.2 Projectile

```
1 ;; (setq projectile-mode-line "Projectile")
2 ;; (setq projectile-track-known-projects-automatically 'nil)
```

6.3 TODO Fast Scroll

```
1 (require 'fast-scroll)
2 (fast-scroll-config)
3 (fast-scroll-mode 1)
4 (setq fast-but-imprecise-scrolling 't)
5 (setq jit-lock-defer-time 0)
6 (setq display-line-numbers-type nil)
7 (setq doom-theme 'doom-tomorrow-night)
8 ;;(setq doom-theme 'doom-nord-light)
9 (setq doom-modeline-enable-word-count nil)
```

7 Garbage Collection

Sometimes it is useful to collect your garbage.

```
1 (after! gcmh
2   (setq gcmh-high-cons-threshold 33554432))
```

8 Provide Config File

Provide this config file to be used in `init.el`

```
1 (provide 'config)
```

9 Extra Packages

```
1 ;; NIXOS
2 ;;(package! nixos-options)
3 ;;(package! helm-nixos-options)
4 ;;(package! company-nixos-options)
5
6 ;; WINDOW MANAGER
7 ;;(package! exwm)
8
9 ;; OTHERS
10 ;;(package! origami)
11
12 (package! fast-scroll)
13 (package! lorem-ipsum)
14 (package! org-bullets)
15 (package! command-log-mode)
16 (package! figlet)
17
18 (package! doom-themes)
19 (package! evil-better-visual-line)
20 (provide 'packages)
```

9.1 Company install

```
1 (setq company-idle-delay 0)
2 (setq company-tooltip-limit 6)
3 (setq company-dabbrev-downcase nil)
4 (setq company-minimum-prefix-length 1)
5 (setq company-dabbrev-ignore-case nil)
6 (setq company-selection-wrap-around t)
7 (setq company-selection-default 0)
```

9.2 Figlet

```
1 (defun figlet-border (&optional b e)
2   (interactive "r"))
```

```
3 (shell-command-on-region b e "toilet -w 200 -f term -F border" (
  current-buffer) t))
4
5 (defun figlet-future (&optional b e)
6   (interactive "r")
7   (shell-command-on-region b e "toilet -w 200 -f future" (current-
    buffer) t))
8
9 (defun figlet-future-border (&optional b e)
10  (interactive "r")
11  (shell-command-on-region b e "toilet -w 200 -f future -F border" (
    current-buffer) t))
12
13 (defun figlet-pagga (&optional b e)
14  (interactive "r")
15  (shell-command-on-region b e "toilet -w 200 -f pagga -F border" (
    current-buffer) t))
16
17 (defun figlet-small (&optional b e)
18  (interactive "r")
19  (shell-command-on-region b e "figlet -f small" (current-buffer) t))
```

10 ORG MODE

```
1 (setq org-hide-emphasis-markers t)
2 (setq org-ellipsis " ")
3
4 ;; Company mode
5 (defun trigger-org-company-complete () (interactive)
6   (if (string-equal(setq org-hide-emphasis-markers t))))
7
8 (setq org-ellipsis " ")
9
10 ;; Company mode
11 (defun trigger-org-company-complete ()
12   (interactive)
13   (if (string-equal "#" (string (preceding-char))))
14     (progn
15       (insert "+")
16       (company-complete))
17     (insert "+")))
18
19 (eval-after-load 'org '(define-key org-mode-map
20   (kbd "+") 'trigger-org-company-complete))
21
22 (custom-set-faces
23   '(org-level-1 ((t (:inherit outline-1 :height 1.2))))
24   '(org-level-2 ((t (:inherit outline-2 :height 1.1)))))
```

```
25 '(org-level-3 ((t (:inherit outline-3 :height 1.0))))
26 '(org-level-4 ((t (:inherit outline-4 :height 1.0))))
27 '(org-level-5 ((t (:inherit outline-5 :height 1.0))))
```

10.1 Prettify ORG MODE

```
1 ;; Hook in HOOKS FOREVER
2 (prettify-symbols-mode t)
3 (global-prettify-symbols-mode t)
```

11 Globals

International variables on emacs.

```
1 (global-hl-todo-mode 1)
2 (global-hi-lock-mode 1)
```

12 Hooks Forever

Add-Hook to your emacs

12.1 INIT Hooks

```
1 (add-hook 'after-init-hook 'global-company-mode)
2 (add-hook 'after-init-hook 'display-time-mode)
```

12.2 ORG Hooks

```
1 (add-hook 'org-mode-hook (lambda () (hl-todo-mode 1)))
2 (add-hook 'org-mode-hook (lambda () (org-bullets-mode 1)))
3 (add-hook 'org-mode-hook
4           '(lambda ()
5               (add-hook 'write-content-functions
6                           'delete-trailing-whitespace)))
```

12.3 OTHER Hooks

```
1 ;;(add-hook 'fast-scroll-start-hook (lambda () (flycheck-mode -1)))  
2 ;;(add-hook 'fast-scroll-end-hook (lambda () (flycheck-mode 1)))
```

13 Defaults

```
1 (setq figlet-default-font "Future")
```
